

Loop Detector

รายละเอียดสินค้า อุปกรณ์เสริมสำหรับไม้กั้นประตูเข้า-ออก

Model	Loop Detector
Supply voltage	230V AC, 115V AC, 24V DC/AC, 12V DC/AC (See the label on the detector)
Voltage tolerance AC	+10% / -15%
Voltage tolerance DC	±15%
Power Consumption	4.5VA
Output relays	240V/5A
Operating temperature	-20°C to +65°C
Storage temperature	-40°C to +85°C
Frequency range	20 kHz to 170 kHz
Reaction time	100ms
Signal holding time	Unlimited
Sensitivity	Adjustable in 3 increments
Loop inductance	Total loop plus connection wiring: 50µH to 1000µH. Ideal is 100µH to 300µH
Loop connection wiring	Maximum length 20 meters, twisted at least 20 times per meter
Size of Housing	78x40x108 mm (L x W x H)

Loop Detector
