

COMBINER BOX

3 Phase 2 String DC 600V 16A

Usage environment

- * Operating voltage: 1000VDC / 380VAC
- * Relative temperature: ≤80%
- * Temperature: -20°C ~ 50°C
- * The power distribution cabinet including all electrical appliances on mechanical equipment should be installed in a rainproof and dust-proof factory building

Specification

Model: HCB-3P2-2

System MAX DC Voltage	600V
MAX input current each string	16A
MAX input string	2 String
DC Fuse	16A
DC MCB	16A
DC SPD 1000V	20-40kA
DC SPD Max discharge current	40kA
AC System	Three Phase
AC MCB	32A
AC SPD	4P 440V 20-40kA
Permissible relative humidity	0-95% no condensation
Box material	PVC
Width*High*Depth (mm)	295*420*140
